EXPERIENCE

Snthrgy, New York— *FrontEnd Engineer*

Feb 2021 - Present

Creating and maintaining well tested reusable, stateful components for a browser based musical synthesizer. Wiring up sound engines to said components, designing and coding sound shaping tools, layouts, and overall UI/UX protocols. Integrating the power of React, TypeScript, and Sound.js for a totally new type of user customized musical experience.

New Dimension Church, New York— *Web Developer*

Nov 2020 - Present

Creating, updating, and maintaining the church website using Wordpress CMS while writing custom CSS and JavaScript. Following latest trends using CSS transitions and animations, as well as responsive design best practices. Implementing SEO best practices and protocols.

Joe Coffee Company, New York— *Lead Trainer*

Jan 2019 - Present

One of two Lead Trainers in the company responsible for teaching classes, training, and quality control of the entire staff. Oversees 23 locations around New York, ensuring high standards are met in craft coffee preparation and equipment usage protocol.
